

MULTI-BRAND REPLACEMENT CASEMENT SASHES

from *Casco Industries*

Sash design series that function in different brands. Choose the series that works for your specific project.

Is this the right product for your home?

Do you own wood casement windows?

Are your window frames in good shape?

Does your hardware still operate for you?

Want to avoid costly full window replacement?

Order a replacement sash from Casco Industries. Three unique series allow sash replacement from different brand windows to rejuvenate old wood windows. Each new sash is built from raw pine and covered with extruded aluminum cladding that has been designed to fit even into old aluminum clad windows openings! This means you are now able to convert roll form aluminum clad windows to extruded cladding. Each new replacement sash also comes with a factory 20 year warranty from Cardinal Insulated Glass!

Standard Features:

- Maintenance free extruded aluminum clad exterior in any of Casco's standard exterior colors
- Cardinal Insulated Glass with 20 year warranty
- Raw pine interior allows full customized interior to match existing window paint or stain color!
- New perimeter weather-strip

Optional Features:

- Energy efficient glass options
- Estate or custom color exterior cladding
- Grilles between the glass & simulated divided lite (SDL)
- Interior removable pine grilles with or without surround
- Beige or black weather-strip (availability varies by series)

What is a sash?

A window sash is the wood frame component that holds the glass inside of a window and allows movement. A casement sash swings open, either on the left or right, and allows ventilation into a room.

update your home!

Replacing sashes in your existing windows is the perfect time to update your energy efficiency and home design. Using new insulated LoE glass in your windows will increase the energy efficiency of your windows reducing home heating and cooling bills. Additionally, grilles can be added in between the glass or on the exterior of the glass. Don't like the grille pattern on your house? Now is the time to change it! With a new pattern you can provide your home a new and updated look without the hassle of changing the full window.

how to order

The following items must be specified on the order being placed:

- Series of sash being ordered
- "Sash width" and "sash height" as specified in each series.
- Exterior cladding color selected from Casco's standard or estate exterior colors
- Glass type (clear/LoE)
- Safety glass if required
- Grille/muntin options

special note

Casco Replacement Casement Sash are only a sash component of a window. Modification and/or alteration to both the sash and/or frame may be required to make the units work in your window properly. Hardware is not supplied with new window sash and existing hardware must be reapplied to the new window sash. Hardware is not supplied with the sash.

Any questions, please ask!
